EXPERIENCE

Managing Partner & I.T. Engineer

KASTERVO LTD • Paralimni, Famagusta, CY • April 2018 - Present

My mission as an engineer is to create, manage and monitor secure networks and systems for the company and the clients. As a managing partner I'm responsible for overseeing the business side of things including but not limited to new business development, research and development of new products and technologies, compliance policies and procedures implementation, vendor/supplier management, project management.

Information Technology Engineer

IBase.Tech • Galatsion, Attica, GR • April 2019 - Present

My mission is to secure, design and administer critical business infrastructure and provide high level consulting to clients. Being involved on a daily basis with GNU/Linux and Windows environments along with proprietary firewalls, sophisticated backup solutions, cloud services, monitoring tools and automation software.

Help Desk Support Engineer Intern

Sioufas & Associates Law Firm • Rentis, Attica, GR • March 2017 – August 2017

Full time internship on the Information Technology department for 6 months. Activities Include Troubleshooting on site computer issues, hardware and software, working with external Associates to help them connect to the company VPN network. Monitoring the servers for errors and uptime plus managing the ticketing system and replying on requests.

EDUCATION

Technical Informatics Applications (Multimedia / Web designer - Developer / Video Games)

Vocational Training Institute of Nea Ionia, Attica, GR • October 2013 – June 2016

Three years of training about coding with C++, Java, JavaScript, CSS, OpenGL, Video Editing, Image processing, Network configurations, 3D Modeling, game design, computer architecture, Web applications, Adobe flash development, etc
